ETS Opens Office in Mumbai, India

Enviro-Tech Systems [ETS] has recently increased its presence in India. The grand opening of the office, in January of 2011, was in an effort to increase ETS's working relationship with ONGC, Reliance, Oil India, Indian Oil and other major players in the region. Through this new venture ETS expects to expand even further by transferring its technology to company personnel in the way of design, engineering and fabrication of products in Mumbai. ETS's expectations are high and they are looking forward towards advancing in the Asian market.
